

ResourceManager

- Designed for Professional Organisations
- Simple and Intuitive Calendar Interface
- Unique System of Event Planning
- Set Rules for Use of and Allocation of Resources
- Plan and Notify Attendees of Meeting
- Manage Essential Resources

Many professional organisations need to plan meeting and manage their resources, such as staff leave, meeting rooms, equipment, vehicles. ResourceManager enables you to track and indeed restrict items of resource and therefore maximise the overall efficiency of your staff and business, helping to build stronger Client and employee relationships and ultimately maximising your profits.

Managing Resources setting rules and restricting use of items is very difficult with spreadsheets. ResourceManager is a network application for multi-user environments that gives you the ability to plan and manage resources efficiently.

ResourceManager is used by professional organisations in many business sectors around the world, including, Consultancy, Accounting, Legal, Architecture, Engineering, IT Services, Design, Financial Services, Advertising, Technology, Charities...

Track Resources.

ResourceManager has a simple intuitive interface that lets users create and manage items of resource, then plan, track or even restrict their usage.

Plan Meetings.

Plan and notify individuals of meetings; with its integrated email function the program will invite attendees (compatible with Microsoft Outlook) and will notify and remind them of pending or imminent meetings.

Manage Holidays/Vacations.

The Rules Wizard lets you restrict resources (such as employees) from being off-site coincidentally. You can restrict when leave is taken, when meetings occur and when training happens.

Create and Manage Events.

An event is where one or more resources are used. The tree output lets you add differing resources to an event, for example an 'Meeting Event' would typically have allocated to it resources such as, Meeting Room, Projector, Employees, Coffee Machine.

Leave Management.

The program lets you set quotas and manage Leave (Vacations or Holidays), Sickness, indeed you can even limit the amount of time spent away from the office.

Easy Networking.

The Networking and Sharing Wizard gets users quickly networked, allowing quick and easy roll-out.

Link to other programs.

ResourceManager links to:-
Microsoft Outlook
Microsoft Excel

Web Output.

ResourceManager can publish view only HTML pages for use within your corporate websites.

Rules Based Overview.

The Overview lets you specify various conformance parameters, to ensure you are not left short-staffed or that essential equipment is over-booked.
